Northwestern Medicine at Lake Forest Hospital is pleased to introduce the Maternal-Fetal Medicine Program, which is staffed by a comprehensive team offering integrated and full-scope multidisciplinary treatment for high-risk moms and their babies.

• Team led by four board-certified Maternal-Fetal Medicine specialists.
• Techniques for the latest diagnostic care of patients with complicated pregnancies.
• Works closely with referring physicians and local pediatricians to ensure the best care for mom and baby.
• Specially-trained and experienced sonographer available at all appointments.
• Outpatient clinic available Monday, Tuesday and Thursday; ultrasounds read by Maternal-Fetal Medicine specialists Monday through Friday.
• Genetic counseling available Mondays and Thursdays by a board-certified specialist able to consult on genetic testing and all aspects of reproductive genetics. Genetic testing also available on-site.
• Continuity of care provided through the staffing of the Level IIe Special Care Nursery at Lake Forest Hospital by Ann & Robert H. Lurie Children’s Hospital of Chicago’s neonatologists.
• Partnering with Ann & Robert H. Lurie Children’s Hospital of Chicago Institute for Fetal Health. This is one of the only programs in Illinois that offers a true multidisciplinary approach which involves the obstetrical care team, the pediatric specialists at Lurie Children’s and the baby’s pediatricians to provide the best care plan following delivery.
